Very comprehensive. The owner's manual is over 540 pages and Nav is 330. The fonts are pretty small. I hope there isn't a test following these. It's all in B&W. It would have been nice if some of the displays were in color. · The CD contains the manuals. I went ahead and ordered the copies on paper to keep in my glove compartment should I need to relate to something on the way. The CD I have in the den, so I can relate before I get in the car. With all it is to find out about TLX I need all the help I can get. · I regularly refer to the PDF version on my laptop, and have them on my phone as well. No copy (saving trees and reducing weight in the car, no spare tire either). · I ordered the copies, yes, it's a lot of information. But it will help in the future. The manuals on the disk, I think, are not as comprehensive as (kill a tree) printed manuals. I also keep PDFs from site owners on Google Drive for easy access anywhere on Device. · What are the chances that we will have access to service manuals? They would be super useful! · What are the chances that we will have access to service manuals? They would be super helpful! Any idea of whether the TLX Service Manual is Somewhere? Looks like Helm doesn't have it. · I've been looking for them, too. I couldn't find any. · I regularly refer to the PDF version on my laptop, and have them on my phone as well. No copy (saving trees and reducing weight in the car, no spare tire either). I do the same. I hate paper. Even all my bills are online. I have no statement the paper is coming home. One less thing to worry about when moving too · What are the chances that we will have access to service manuals? They would be super helpful! What are you looking for? I noticed in the owner's manual, they even have instructions on how to change the oil and it is different from V6 to 14. In case that's the kind of thing you're looking for. · Service manuals go into more detail on the numbers of parts and how things are put together.... or take apart. · It's all on the service's website. It's there for independent garages, mechanics and DIY'ers. · I might have to take a look. I'd like to know which parts of the exterior mirrors make them fade automatically. · When I bought my 2004 TL, I also bought the service and electrical manuals. They actually helped me once or twice over (almost) 12 years I owned the car, so I don't regret buying them. (For example, the electric manual helped when I added a backup camera post-market.) However, if the site that @MTD linked has all this information for, essentially, \$10 or \$20 every time I need to dig them out for my '15 TLX, that would probably be much cheaper for me. · I had access a few weeks ago when I was looking for some information on the mirrors. I don't remember if the wiring schemes were there or not. Some models don't have all the information yet. I'll check next time I'm hunting for information unless someone gets information beforehand. · I just got the free TLX Owner's Manual and Navigation Manual from Acura. Very comprehensive. The owner's manual is over 540 pages and Nav is 330. The fonts are pretty small. I hope there isn't a test following these. It's all in B&W. It would have been nice if some of the displays were in color. Please tell us who to contact to get the printed copies. Thank.
